Re: Boise State University Memristors Developed by Dr. Kristy A. Campbell

To Whom It May Concern:

Boise State University has exclusively licensed all of the memristor technology developed in Dr. Campbell's research group as of the date of this letter to M. Alexander Nugent Consulting and its affiliate, Knowm Inc. The above-mentioned memristor technology includes, but is not limited to, U.S. Patent Nos. 9,118,006, 9,583,703 and 9,583,699.

Please visit Knowm's website for information about these memristors and their applications.

Please feel free to contact me with any questions or concerns.
